

Unit 2 Activity 2: Data Detective

Checklist worksheet. Write answers in your exercise book.

Name: _____ Class: _____ Date: _____

Step 1: Launch MiniPhone OS

- ☐ Open: <https://sgs-science.web.app/ks3/year7/unit2/activity2/index.html>
- ☐ Open **Messages** and follow the missions.
- ☐ On a laptop, use the **Notes** panel (right). On mobile, tap **Notes**.
- ☐ Use **Case File** to review what data was collected.

Step 2: Set up your investigation log (in your book)

Draw a table with these headings (one row per app):

- ☐ App
- ☐ What data did it ask for?
- ☐ Why might it want it?
- ☐ What happens if you say NO?

Step 3: Missions (what to look for)

- ☐ **Browser:** Try both cookie choices. Tap a few items. Does **Sponsored** change? Use the cookie button to switch.
- ☐ **Connectify:** Tap highlighted clauses. Decide: agree or decline. If you agree: explore tabs and look for **Sponsored**.
- ☐ **MapMe:** Try *Precise* vs *Approximate*. Tap pins. Compare dot vs big circle. Use the crosshair button to switch.
- ☐ **Super Puzzle Quest:** Notice tracking/camera/contacts prompts. Watch one ad for coins. What changes when you say NO?

Step 4: Reflection (answer in your book)

- A. Which app was the “greediest”? Was it justified?
- B. One privacy vs convenience trade-off you noticed.

Step 5: Partner discussion

Compare your findings. Which permission choices felt most risky? Why?

Learning check

- ☐ I can describe what cookies and permissions do.
- ☐ I can explain why apps ask for data.
- ☐ I can explain privacy vs convenience.
